REFUGE BIRD LISTS

no. 384

Bird lists have now been issued for most of the National Wildlife Refuges. Copy, which has been prepared by the manager, generally in collaboration with local ornithologists or bird clubs, has been adapted to a 4-page leaflet.

Following a one-page description of the area and seasonal behavior of birds thereon, a more or less standardized style has been followed in presenting status and abundance. These 4-page lists have been prepared for ornithologists and students of bird distribution. These lists have been issued in the Refuge Leaflet Series, beginning with RL-101. Those designated -R have been recently revised. Single copies for those refuges in which you are particularly interested are obtainable without cost from the refuge, regional, or Washington office.
